Skunk Hollow

Well, garden making and house cleaning seems to be the order of the day at this burg.

C. W. Walter purchased another cow one day last week. He says he is going to be champion butter maker this summer. Luck to you Charles.

Ed Ruff is keeping very quiet these days. He says he is studying where to drill that oil well. Say Ed, drill it where Manuel Walker caught that big carp.

Clara Miller is very poorly at the home of Caroline Ulmer. She was not expected to live Friday night. Those that called on her Saturday were as follows: Will Miller and family, Frank Miller and family, John Miller, Ed and Geo. Miller, Louise Miller, Mae Johnson and friend, Mrs. Sol Engle and daughter, Mrs. Sophie Daubenmire and Mrs. John H. Wagner.

Say, I would very much like to get a glimpse of that insect dog that Fred Gruner purchased, I bet he is handsome.

I heard that Herbert Tipple had a corner visitor one night. Say, don't use the gun but the toe of your shoe.

Herman Blum, our general huxter, says he has not seen his lady friend for four months. Say, Herman did she hand you a sour lemon?

John H. Wagner called on Jake Engle's, Saturday evening on business.

Seth H. Sollenberger has the phone now and anyone wishing to know the price of highballs can call him up and not bother Old Crupper with such perplexing questions.

Aaron Kernmiller moved his family on the creek the other week.

Manuel Walter says he would be lonesome without his pipe.

Wm. Elick moved to Tattle Hollow one day last week. William says he is going to turn over some those ditches for corn this spring.

Well don't Happy Kid, think I don't know who you are for I do, and Aunt Betty, of Raccoon Crossing, I know you and also Pumpkin Valley scribe, don't think you can hide from the bright eyes of Old Crupper, for Old Crupper is as wise as an owl and No. 1 detective, so you see he has ferreted you out like the old time Nick Carter.

Poor Happy Ike must be no more, as I don't see anything of him any more. I must have surely hit him in the solar plexus and made him give up the ghost like Old Dog Tray.

What has become of Hocking Flate news gatherer, would like to hear some of their spicy news again.

Jacob Daubenmier and daughter Anna, were seen mixing mud on our pike Saturday, en route to church.

I'll bet a cent to a dill pickle that since Seth H. Sollenberger has the phone, he has called up every girl for a radius of 20 miles square.

The Improvement Society.

A recent meeting of the Improvement Society was called in Logan and all the clubs of the town were invited to attend to assist in some plans for the summer for the improvement of our little city. The meeting was well advertised, and the court room was secured for the occasion, and was well lighted and well heated and all ready for the monster meeting, and the proposed organization of The Associated Clubs of Logan, and listen kind reader, and kind citizen that has the beauty of the town at heart, there were just three persons present at the monster meeting, and it was a beautiful evening. That seems to be about how much the people of Logan appreciate the work of the Improvement Society. However, this organization that

has done so much for the beauty of Logan in the building of parks, is not to be daunted. They have fought adversity all these years and they expect to fight more of it, but they propose to make some more beauty spots in Logan that will be a joy forever.

The Improvement Society has constructed a beautiful cement park on the dog lot between the James Building and the Court House, and the purpose of that improvement in its being so much pavement was that the different societies and churches and clubs of Logan might have a place to hold festivals and socials, and the place will be nice and dry and well lighted, and will not cost a cent for its use. The Improvement Society rescued this spot of Logan from a mud hole to the prettiest spot in Logan, and there are few to appreciate their efforts. Do the citizens of Logan want this

society to disband and let the park construction cease, or do they want their work to go on. They are planning a big dedication of the new Fountain Park east of the Court House by giving a supper and a program of talks on Logan and some music.

This dedication will be on as soon as the weather will permit, and we hope that the people will lend a hand to the uplift and beautifying of our town.

Spring Time.

This is the first day of April and the glorious Spring Time is upon us and the fellow that has growled at the winter for the past seven months, may now begin to get too hot. This is the most glorious part of the year and all people should rejoice as does all nature.
